

small 0402 green led**Product Description of small 0402 green led**

Ultra high bright green smd chip led diode 600mcd 0402 led. It is 3000pcs/reel. It has small size, low light decay and long lifespan advantages and so on, can be used for many electronic products. The small size provides more possibilities for PCB design. Normally, if you are looking for small size and high brightness smd led, this led will be a good choice.

Package Description ▼**■ Package Dimensions:****Recommend Pad Layout**

small 0402 green led Parameter:

Small 0402 green led	
LED Size	1.0x0.5x0.4mm
Color	Green
Wavelength	525nm
Forward Voltage	2.8-3.6V
Forward Current	20mA
Luminous Intensity	300-600mcd
Packaging	3000PCS

Full color of SMD 0402 LEDs

We have all color of smd 0402 leds. If have any inquiry, please feel free to contact us!

small 0402 green led Applications:

1. Automotive: Dashboards, stop lamps, turn signals
2. Backlighting: LCDs, Key pads advertising
3. Status indicators: Consumer & industrial electronics
4. General use

Production Process for small 0402 green led:

small 0402 green led using the most advanced full ASM solid crystal, wire automatic equipment, automatic sub-BIN taping machines and other fully automatic equipment; products in the design fully take into account the LED light, electricity, thermal characteristics, the use of imported low-light fade water package , The selection of raw materials used are verified by the reliability of the experiment, the product is more stable,

high anti-ESD ability, low light decay, good consistency and so on.

Shipping for small 0402 green led

We can provide DHL, FedEx, UPS, TNT Express service and so on. Please tell us which

shipping method you are prefer for small 0402 green led.

small 0402 green led Company Information and Production Line

Dongguan Zhiding Electronics Technology Co., LTD is a high-tech enterprise specialized in manufacturing, designing and selling high quality LED lighting and LED related products. Zhaoqing Factory has more than 1000 employees, including more than 80 technicians focused on research and development. The factory has fully automatic production machines, the international general test equipments, and excellent equipment reliability experiment. From materials in storage, to process design, to product manufacture, each production process is in strict operation accordance with the ISO9001 quality assurance system. Besides our existing molded products, We also can provide customized products.

We have advanced testing equipment, can be "normal temperature continuous light lifetest", "high temperature and high humidity cycle test", "cold and hot shock cycle test" and "high and low temperature storage test", "high temperature continuous light test", "salt spray test" and reliability test, for all kinds of product reliability test of periodic on a regular basis, provides the high quality for our product quality assurance.

PRODUCTION ENVIRONMENT

FAQ:

Q1. What payment way do you accept?

A1. T/T, Paypal, Western Union and Visa Card are available.

Q2. Can I get some samples before formal order?

A2. Yes, we provide 10-20pcs free samples for you to test, you need to take the freight.

Q3. What about the lead time?

A3. After we finish samples or goods, will take 3-7 days to arrive your city.

Q4. Do you have MOQ limit for the led?

A4, Yes, small 0402 green led is 3000pcs/reel, so MOQ is 3000pcs.

Q5. Can I print my LOGO on the label?

A5. Yes, we can do it, please provide your LOGO information clearly to us.

Q6. How to proceed an order for led light?

A6. Firstly let us know your requirements or application. Secondly we quote according to

your requirements or our suggestions. Thirdly customer confirms the samples and place deposit for formal order. Fourthly we arrange production.
